WITHOUT A STOP!**

Here's a new starter from "America's Pen Capital" that opens a huge new profit door because whole offices, not single desks, are equipping. As significant in its field as were adding machines and telephones, RITE-O-WAY takes office writing out of the Dark Ages, modernizes it, makes it practically automatic.

Time studies show that old style reach-and-dip writing causes error and wastes salaries months of time each year in every office. RITE-O-WAY cuts reach-and-dip street desk work, writes pages without a stop, cuts error by permitting concentration on the work instead of on reach-and-dip — cuts fatigue because the light, poised pen cradles naturally in the fingers — no "writer's cramp."

THAT'S WHAT SELLS RITE-O-WAY IN VOLUME TO EXECUTIVES AND OFFICE WORKERS — SELLS SETS FAST TO PROFESSIONAL PEOPLE AND HOMES!

Replaceable Point Units

The nine points available for the WASP ADDIPOINT pen line are illustrated on this page. Each ADDIPOINT unit will operate in either the \$1.00 or \$1.50 WASP ADDIPOINT pen. All except a few of the Stainless Steel units are double-tipped for double life. All are extremely resistant to writing fluid acids. The 75c units have genuine gold points, iridium-tipped. These units will give writing satisfaction indefinitely.

Double Tipped Everlasting Genuine Steel Points for Double Life
Gold — Iridium Tipped Points

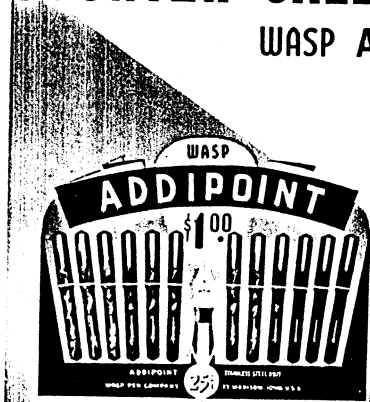

No. 227 Not only a full array of exceptionally smooth points for every handwriting style—not only a Stainless Steel point with double tip for double life and a genuine gold point with iridium tip for indefinitely long life—BUT—every time the point is renewed, a whole new interior for the pen goes with it. This means that when the WASP ADDIPOINT pen needs a new point, replacing the point means new service for the whole pen, because the writing fluid reservoir is replaced along with the point. Still, because ADDIPOINT units are complete, this means no messy job for the dealer, no chance of failure or leakage in the user's hands, and a far better satisfied customer!
